

Appreciating Teacher

Every day, before the sun
And through it all, until it's done
You give yourself, your heart and smile
To shape our minds and lives awhile

Your time, your space, your energy
You give us tools, you set us free
Though your days are long and tough
You offer much more than 'enough'

With your help we stretch and grow
You spur us on, you make us glow
You help us to become our best
You give us much more than a test

Thank you Teacher, for all you do
For your love, and sacrifice, too
And please remember when the schoolyear ends
We're your ever-grateful, lifelong friends
